ITS YELLOW PAGES TELL YOU "WHERE TO BUY IT"

THE MOUNTAIN STATES TELEPHONE & TELEGRAPH COMPANY

GENERAL INFORMATION

Service Suggestions

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

Answering your telephone promptly will assure you better service and avoid abandoned calls or other attempts to reach you. Time is saved by identifying yourself, your Company, or your Department immediately.

Speak slowly, clearly and directly into the telephone with your lips about one-half inch from the mouthpiece. Otherwise you will not be heard distinctly.

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

Service Difficulties

Every effort is devoted toward providing you with the best possible telephone service. We shall appreciate your cooperation in reporting promptly any service troubles or defective equipment, such as broken mouthpieces, frayed cords, or loose wiring. Repairs and replacements due to ordinary usage or unavoidable accidents are made without charge.

"Beep" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of the recorder without this signal is unlawful.

Attachments to Telephones

The equipment, apparatus and lines furnished you have been designed to produce the best telephone results. No instrument, appliance nor device of any kind not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines except as specifically provided in the Tariffs of the Telephone Company. You are requested, therefore, not to use nor permit the use of such instruments, appliances or devices. The Telephone Company reserves the right to remove such devices, when found, in order to protect the telephone service.

Attachments to Directories

To insure the usefulness of the directory, no attachment, holder or auxiliary cover, except such as may be furnished by the Company, shall be used in connection with any telephone directory furnished by the Company.

Changes and Errors in Directories

Every precaution is taken to avoid errors and omissions in the alphabetical telephone directory, but if they occur, the Company's liability for them as provided in its tariffs is limited to an amount not exceeding the charges for the service affected until a new directory is published. In order that the directory records may contain correct listings at all times, notification of changes or errors should be given at once to the Business Office of the Company.

Improper Language

Profane or obscene language over the Company's wires is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

Identification of Employees

All employees who are authorized to represent this Company are provided with a photographic identification card. This card, which is properly countersigned, shows the employee's name, signature and photograph. Subscribers are earnestly requested to refuse admittance to their premises to anyone who cannot furnish this means of identification.

Advertising Telephone Numbers

Many subscribers find it convenient and profitable to use their telephone numbers on stationery and business cards, as well as in their advertising. We encourage this practice, but it should be understood that the assignment of the telephone number does not vest in the subscriber a property right thereto.

We exert every effort to avoid changing telephone numbers, but the needs of the service occasionally compel us to do so. Obviously, when you display your telephone number, the value to you, and to the service as well, depends upon the number being carried correctly at all times. Therefore, in the event your number is changed, it is suggested that corrections be made as promptly as possible.

The Classified Directory

The "Classified" pages of this directory contain the names of business telephone subscribers listed under headings descriptive of the product, service or profession of these subscribers. These pages enable you quickly to determine the name, address, or telephone number of business telephone subscribers who can supply the product or service desired.

ASPEN BASALT CARBONDALE

GLENWOOD SPRINGS NEW CASTLE

Revised to May 25, 1953

EMERGENCY CALLS

IMPORTANT! Make certain now how you can use your telephone to report fire, marauders, or accident. Plan to stay on the line until sure that someone understands the address at which help is needed.

	To Report a Fire	*For Police Assistance*	*Sheriff*
GLENWOOD SPRINGS	27	122	86
ASPEN	2443	2443	3141
BASALT	2443	2443	Eagle 5-W
CARBONDALE	2443	2443	Glenwood Spgs. 86
NEW CASTLE	2443	2443	Glenwood Spgs. 86

If unable to complete Fire, Police, or other Emergency calls by calling the number, call or dial "O" Operator—ask for "FIRE" or "POLICE" and give her the address where the assistance is desired, your name and telephone number.

For Colorado State Patrol ..... Grand Junction 1276

For the Telephone Number or Address of the nearest FEDERAL BUREAU OF INVESTIGATION OFFICE, call ..... Information

TELEPHONE SERVICE CALLS

	Call or Dial "O" (Operator)
Long Distance	Place Call with Operator (From Basalt and Carbondale — See Page 3)

USING THE TELEPHONE IN

ASPEN BASALT CARBONDALE NEW CASTLE

For Emergency and Telephone Service Calls See Page 1

1. **BE SURE OF THE NUMBER**—If you do not find it in the directory, dial "O" (Operator) and ask for Information. Please do not call Information for numbers listed in the directory.

2. **LIFT THE RECEIVER AND LISTEN FOR DIAL TONE**—a steady "humm-m-m-ing" sound. DO NOT START TO DIAL UNTIL YOU HEAR THIS TONE.

3. **LEAVE THE RECEIVER OFF AND PLACE YOUR FINGER IN THE OPENING WHERE YOU SEE THE FIRST FIGURE OF THE NUMBER YOU WISH TO CALL.**

4. **PULL DIAL AROUND UNTIL FINGER STRIKES THE FINGER STOP**—Remove finger from opening and allow dial to return to normal. DO NOT INTERFERE WITH THE RETURN MOVEMENT OF THE DIAL.

5. **PROCEED IN THE SAME WAY TO DIAL THE REMAINING FIGURES OF THE NUMBER IN THE ORDER IN WHICH THEY APPEAR.**

RINGING SIGNAL OR THE BUSY SIGNAL should be heard soon after dialing is completed. The ringing signal is an intermittent "burr-burr-burring" sound that indicates the called telephone is being rung. The busy signal is a fast "buzz-buzz-buzz" which indicates the called line is busy.

IF YOU MAKE A MISTAKE IN DIALING or if your finger slips or does not strike the stop, or if you do not hear the ringing or busy signal within a few seconds, replace the receiver for a moment. Then lift the receiver and when you hear the dial tone, place your call again.

EMERGENCY OR OTHER CALLS IN THE DARK may be made by locating the finger stop on the dial and placing your finger in the first opening below it. Remove the receiver, wait for dial tone, and turn the dial around to the finger stop. Then release the dial and when the operator answers, give her your telephone number, make known the facts and she will assist you.

TO MAKE SUCCESSIVE CALLS replace the receiver for a moment. Then lift the receiver and when you hear the dial tone, dial again.

CALLS FROM PAY STATIONS—Follow instructions shown on the telephone.

PARTY LINE AND EXTENSION TELEPHONE USERS—Always listen in before dialing to avoid interfering with other parties who might be using the line. If another party interferes while you are dialing, tell him that the line is in use, then hang up for a few seconds and dial the number again.

TO CALL ANOTHER PARTY ON YOUR LINE—When the number you wish to call is the same as yours except for the last figure, it indicates that the telephone is on your party line.

ASPEN—Dial the number in the regular manner. When you hear the busy signal, HANG UP.

BASALT, CARBONDALE, and NEW CASTLE—Dial the number in the regular manner. You will hear the busy signal just before dialing the last figure in the number. Proceed to dial the last figure and then HANG UP.

Your telephone will ring until the called party answers, then remove your receiver and proceed with your conversation. If the called party does not answer, lift your receiver for a few seconds to stop the ringing.

OUT-OF-TOWN TELEPHONE CALLS

Glenwood Springs
Place call with Operator.

Aspen and New Castle
Dial "O" and place call with Operator.

Basalt
To Carbondale—Dial "9," listen for dial tone, then dial the number desired.

To all other points—Dial "O" and place call with Operator.

Carbondale
To Basalt—Dial "7," listen for dial tone, then dial the number desired.

To all other points—Dial "O" and place call with Operator.

Tell the Operator:
1. The City or Town you want.
2. The out-of-town telephone number, if available, or the name under which it is listed.

   FOR EXAMPLE—"Calling Omaha, Nebraska—Walnut 3456." (If you don't know the telephone number) "Calling Omaha, Nebraska—anyone at Mr. J. Lowell's residence, 34 Blank Street."
3. Your telephone number (and name if required) when requested by the operator.

Station-to-Station Calls
The above is a station-to-station call because you have not asked the operator to connect you with a particular person or a particular telephone or department reached through a private switchboard. The charge for a station-to-station call is slightly less than for a person-to-person call and begins when the called telephone or private switchboard attendant answers.

Person-to-Person Calls
When you want to be connected with a particular person or with a particular telephone or department reached through a private switchboard, simply give the operator the same information as above except that you would give the name of the person or department wanted, also the extension number if known. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension or department you want.

DAY RATES apply from 4:30 A. M. to 6:00 P. M. on all days except Sundays.

NIGHT RATES apply from 6:00 P. M. to 4:30 A. M. and all day Sundays.

Collect Calls
You may "Reverse" charges, that is, have them billed to the called telephone. Simply tell the operator you want to place the call "Collect." If the called party agrees to pay the cost, charges will be billed to his telephone. There is a small additional charge on station-to-station calls when the initial rate is 20 cents or less.

To Obtain a Rate for An Out-of-Town Call
Call or dial "O" (Operator) and ask for the rate.

To Place a Telephone Conference Call
Call or dial "O" (Operator) and ask for rates and other details.

CALL BY NUMBER whenever you know it — IT'S FASTER!
When you place long distance calls by number, the operator doesn't have to consult "Information" in the distant town and your call can often go through much faster. (If you don't know the number, the operator will give it to you in the course of handling the call—then you can jot it down for use next time.)
