If unable to complete Fire, Police, or other Emergency calls by calling the number, call or dial Operator (figure "0"), ask for "FIRE" or "POLICE" and give her the address where the assistance is desired, your name and telephone number.

Calls in the dark may be made by locating the finger stop on the dial and placing your finger in the first opening below it. Remove the receiver, wait for dial tone, and turn the dial around to the finger stop. Then release the dial and when the operator answers report the emergency to her and she will assist you.

For Emergency and Telephone Service Calls See Page 1

DIALING INSTRUCTIONS

- 1. BE SURE OF THE NUMBER**—If you do not find it in the directory, dial Operator (figure "0") and ask for information. Please do not call information for numbers listed in the directory.
- 2. LIFT THE RECEIVER AND LISTEN FOR DIAL TONE**—a steady "humming" sound. DO NOT START TO DIAL UNTIL YOU HEAR THIS TONE.
- 3. WITH THE RECEIVER OFF DIAL THE FIRST TWO LETTERS AND FIGURE IN THE CENTRAL OFFICE NAME, THEN THE OTHER FOUR FIGURES, IN THE NUMBER.**

IF THE NUMBER IS NOT PRECEDED BY AN OFFICE NAME DIAL EACH FIGURE IN THE NUMBER.
- 4. WHEN DIALING PULL DIAL AROUND UNTIL FINGER STRIKES THE FINGER STOP.** Remove finger from opening and allow dial to return without interference. DO NOT MISTAKE THE LETTER "O" FOR THE FIGURE "0" NOR THE LETTER "I" FOR THE FIGURE "1."

5. TO MAKE SUCCESSIVE CALLS replace the receiver for a moment and proceed as previously explained.

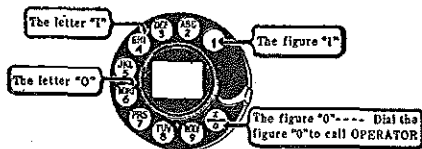

THE RINGING SIGNAL (an intermittent "burr-burr'ring" sound) OR **THE BUSY SIGNAL** (a steady "buzz-buzz-buzz") should be heard soon after the dialing is completed.

IF YOU MAKE A MISTAKE IN DIALING or if your finger slips or does not strike the stop, or if you do not hear the ringing or busy signal within a few seconds, replace the receiver for a moment. Then lift the receiver and when you hear the dial tone, place your call again.

CALL FROM PAY STATIONS — Follow instructions shown on the telephone.

PARTY LINE AND EXTENSION TELEPHONE USERS — Always listen in before dialing to avoid interfering with other parties who might be using the line.

IMPORTANT — If when calling from a party line, you always get a busy signal after dialing a certain telephone number, it may indicate that you are calling another party on your line. To call another party on your line dial Operator (figure "0") and she will assist you.

INSTRUCTIONS TO ANVIL POINTS SUBSCRIBERS

Anvil Points telephones, listed in the Rifle section of this directory, are designated †. Numbers preceded by that symbol may be dialed direct in accordance

with the above instructions. For calls to Rifle numbers, dial Operator (figure "0") and give her the number.

OUT-OF-TOWN TELEPHONE CALLS

CALL BY NUMBER whenever you know it — IT'S FASTER!

When you place long distance calls by number, the operator can frequently complete your call *twice* as fast. If you don't know the number, the operator will give it to you in the course of handling the call—then you can jot it down for use next time. If you'd like a handy booklet for listing frequently-called numbers, "The Blue Book of Telephone Numbers" is free. For your copy, just ask at the Telephone Business Office.

Glenwood Springs

Place call with Operator.

Anvil Points

To Grand Valley—Dial the single figure "5" with the four remaining figures of the Grand Valley listed number.

To all other points—Dial Operator (figure "0").

Aspen and New Castle

Dial Operator (figure "0") and place call with Operator.

Basalt

To Carbondale—Dial the listed number.

To all other points—Dial Operator (figure "0") and place call with Operator.

Carbondale

To Basalt—Dial "7," listen for dial tone, then dial the number desired.

To all other points—Dial Operator (figure "0") and place call with Operator.

Grand Valley

To Anvil Point—Dial "3," then dial the Anvil Point number.

Tell the Operator:

- The City or Town you want.
- The out-of-town telephone number, if available, or the name under which it is listed.
FOR EXAMPLE—"Calling Omaha, Nebraska—Walnut 2-3456." (If you don't know the telephone number) "Calling Omaha, Nebraska—anyone at Mr. J. Lowell's residence, 34 Blank Street."
- Your telephone number (and name if required) when requested by the Operator.

Station-to-Station Calls

The above is a station-to-station call because you have not asked the Operator to connect you

with a particular person or a particular telephone or department reached through a private switchboard. The charge for a station-to-station call is slightly less than for a person-to-person call and begins when the called telephone or private switchboard attendant answers.

Person-to-Person Calls

When you want to be connected with a particular person or with a particular telephone or department reached through a private switchboard, simply give the Operator the same information as above except that you would give the name of the person or department wanted, also the extension number if known. The charge is slightly more than for a station-to-station call and begins when you reach the person, extension or department you want.

DAY RATES apply from 4:30 A. M. to 6:00 P. M. on all days except Sundays.

REDUCED NIGHT RATES apply from 6:00 P. M. to 4:30 A. M. and all day Sundays.

Collect Calls

You may "Reverse" charges, that is, have them billed to the called telephone. Simply tell the Operator you want to place the call "Collect." If the called party agrees to pay the cost, charges will be billed to his telephone. There is a small additional charge on station-to-station calls when the initial rate is 25 cents or less.

To Obtain a Rate for An Out-of-Town Call

Call or dial Operator (figure "0") and ask for the rate.

To Place a Telephone Conference Call

Call or dial Operator (figure "0") and ask for rates and other details.

GENERAL INFORMATION

Service Suggestions

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

Answering your telephone promptly will assure you better service and avoid abandoned calls or other attempts to reach you. Time is saved by identifying yourself, your Company, or your Department immediately.

Speak slowly, clearly and directly into the telephone with your lips about one-half inch from the mouthpiece. Otherwise you will not be heard distinctly.

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

Service Difficulties

Every effort is devoted toward providing you with the best possible telephone service. We shall appreciate your cooperation in reporting promptly any service troubles or defective equipment, such as broken receiver caps, frayed cords, or loose wiring. Repairs and replacements due to ordinary usage or unavoidable accidents are made without charge.

"Beep" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of the recorder without this signal is unlawful.

Attachments to Telephones

The equipment, apparatus and lines furnished you have been designed to produce

The Telephone Company reserves the right to remove such devices, when found, in order to protect the telephone service.

Attachments to Directories

To insure the usefulness of the directory, no attachment, holder or auxiliary cover, except such as may be furnished by the Company, shall be used in connection with any telephone directory furnished by the Company.

Changes and Errors in Directories

Every precaution is taken to avoid errors and omissions in the alphabetical telephone directory, but if they occur, the Company's liability for them as provided in its tariffs is limited to an amount not exceeding the charges for the service affected until a new directory is published. In order that the directory records may contain correct listings at all times, notification of changes or errors should be given at once to the Business Office of the Company.

Improper Language

Profane or obscene language over the Company's wires is prohibited. Subscribers are responsible for the enforcement of this rule. Failure to observe this will constitute cause for discontinuing service.

Advertising Business Telephone Numbers

Many subscribers find it convenient and profitable to use their business telephone numbers on stationery and business cards, as well as in their advertising. We encourage this practice, but it should be understood that the assignment of the telephone number does not vest in the subscriber a property right thereto.

We exert every effort to avoid changing telephone numbers, but the needs of the service occasionally compel us to do so. Obviously, when you display your telephone number, the value to you, and to the service as well, depends upon the number being carried correctly at all times. Therefore, in the event your number is changed, it is suggested that corrections be made as promptly as possible.

To Speed Service . . .

**Please Look Up the Number
First!**

... Each new issue of the
TELEPHONE DIRECTORY
contains an important
percentage of listings
that are new,
or changed.

... Many new telephones
have been installed.

... Many people have changed
their places of residence
or business.

Please Consult the Directory First!

100%

**That's what we aim for in publishing
The Telephone Direc-
tory — to have it 100 per
cent correct**

BUT—with the thousands of subscribers
to be listed, changed addresses, and new
numbers, it is easy to see why it is pos-
sible for an error to creep in here and
there.

Your name, address and telephone num-
ber in this directory are most likely
correct. But, if by any chance they are
not, you'll do us a favor by telephoning
or writing to our nearest Business Office.

**We'll correct our records promptly so it
will appear the way it should
in the next issue.**

STATE-WIDE SERVICE

— Phone Us for Sightseeing Information —

A TELEPHONE SERVICE
To Fit Your Particular Needs

COMPLETE CONVENIENT LOW IN COST
Many time-saving and convenient services
available for business or home:

AUTOMATIC ANSWERING AND RECORD-
ING EQUIPMENT, connected to a telephone,
answers calls, gives callers a recorded mes-
sage and lets them leave a recorded mes-
sage.

SPEAKERPHONE OR "HANDS FREE" TELE-
PHONE you may talk or listen without
picking up this telephone. For privacy use
the telephone in the usual way.

VOLUME CONTROL TELEPHONE — Control
lets user increase volume as required. A
 boon for those with impaired hearing.

KEY BUTTON TELEPHONES — You can
"pick up" and "hold" up to as many as 5
lines, intercommunicate, signal your secre-
tary. Buttons light up when calls come in
or lines are in use.

TELETYPEWRITER SERVICE — the speed of
telephone service with the advantage of a
written record. Private line service or ex-
change service between cities available.
